

CCI Std.

static, to be provided by vendor implementation:

```
static cci::cci_cnf_api* get_cnf_api_instance(sc_module* = NULL);  
(called by user and parameter/tools)
```

User

Param-Vendor
(= User Code)

explicitly instantiates my_param<T>

```
cci::cci_cnf_api* myApi = cci::get_cnf_api_instance(this);
```

Tool-Vendor

Tool
